

Colour Guide

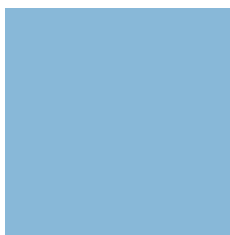

MITEX™ Texture Coating Colour Guide

Wide range of colours

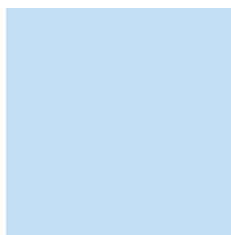

MITEX™ Texture Coats have been developed to accept a range of specially formulated paint tints. There are currently 26 modern colours in the range which have been chosen to satisfy a broad range of homeowner tastes.

Texture coat tinting

Unlike paint tinting, where colour reproduction results are expected to be highly accurate, the formulation of texture coatings makes exact colour matching more difficult.

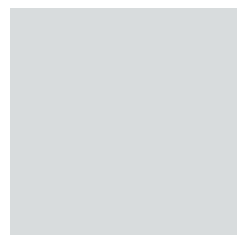

Bavaria

Miami

Seascape

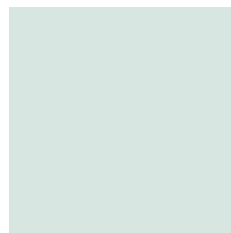

Tundra

Willow

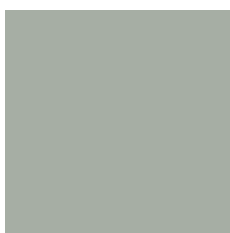

Wattle

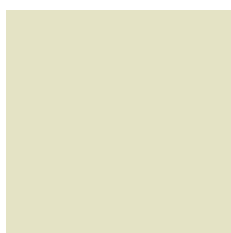

Witlof

Tempest

Bottlebrush

Huon

Mossman

Sergeant

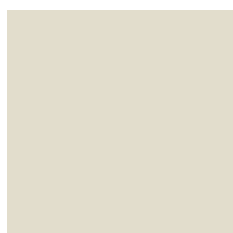

The results of tinted product may vary slightly from batch to batch and this should be taken into account by applicators.

The colour swatches below are provided as a guide to the range of colours available for all MITEX™ texture products.

Each MITEX™ Trade Centre has texture samples which give a more accurate indication of the finished product. Ask your local Trade Centre staff to show you the samples for the colours you are interested in.

Nubuck

Suede

Stonehenge

Chinook

Wombat

Grapevine

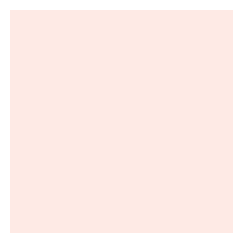

Morocco

Flamingo

Buttercup

Bubblegum

Custard

Tusk

Shandy

Soda

The MITEX™ Product Range

MITEX™ provides a complete texture coating solution for a wide range of substrates including brickwork, blockwork, fibre cement, Hebel® AAC, concrete and cement render.

MITEX™ has the backing of CSR, one of Australia's leading building material manufacturers. CSR supplies many of the substrates that are commonly texture coated and this experience has ensured that MITEX™ products are formulated to provide the highest level of quality and durability.

Preparation

- MITEX™ Jointing Compound
- MITEX™ Jointing Tape
– Perforated and Non-Perforated
- MITEX™ Mi-Render
- MITEX™ Mi-Bond

Texture Coats

- MITEX™ Kalahari Fine and Medium
- MITEX™ Mojavi Scratch 2mm

New texture coat options are being added to the range all the time, so make sure you visit your local MITEX™ Trade Centre regularly.
